With 52% PBX Marketshare in Vegas, NEC is the Marquee Player.

When it comes to providing telecommunications solutions in Las Vegas, no one performs like NEC.

NEC systems represent 52% of the PBX marketshare in properties with 1000 rooms or more.

With features that increase productivity and the quality of your guest's stay, NEC helps some of the biggest properties shine —let us do the same for you!

A Family of Solutions

The NEC Hospitality Solution supports a wide variety of related NEC products and systems including the NEAX®2400 IPX (Internet Protocol eXchange), the NEAX2000 IPS (Internet Protocol Server), the NEAX Wireless Communications Solution, Customer Contact Center Solutions, desktop and enterprise videoconferencing solutions. NEC also has advanced FUSION™ Networks voice and data convergence technology. NEC has a hospitality solution for any size operation.

Ensuring Excellence

The NEC Hospitality Solution offers state-of-the-art features, outstanding reliability, digital technology and advanced voice/data integration to deliver smart, cost-effective and easy-to-use applications. We can help you manage information more efficiently while streamlining your property management operations, and enhancing your guest's stay.
